**Randall Alley's Presentations**

- National Skills for Life Bilateral Conference, "Optimizing the Human Interface - Get More Out of Your System," Oct. 18, 2018, Houston, TX
- American Orthotic & Prosthetic Association (AOPA) World Congress "A Comparison of Transfemoral Interface Design: Effects on Gait Propulsion," September 28, 2018, Vancouver Convention Center West, Vancouver, BC, Canada
- UCLA Health Rehabilitation Services, Occupational Therapy Department, "Multiarticulating Prehensors and Advanced Interface Technologies," March 6, 2018, Los Angeles, CA
- DARPA, Hand Proprioception and Touch Interfaces (HAPTIX), "Adaptive Diagnostic Tooling for Customized Upper Limb Prosthetic Socket Fitment - Reestablishing the Neuromuscular Connection," Feb. 22, 2018, Marriot Regency, SC
- Paradigm Outcomes Educational Webinars, "How to Best Enable the Amputee - A comparison of three prosthetic approaches (Hydrostatic Sockets, Osseostabilized Interfaces, & Osseointegration), Feb. 20, 2018, online
- Federal Advanced Amputation Skills Training (FAAST), "High-Fidelity Interface, Osseostabilization and DAPRA," July 13, 2017, Walter Reed, Bethesda, Maryland.

- University of Washington, Department of Rehabilitation Medicine, Masters of Prosthetics and Orthotics (MPO), "HiFi Interface Technology for Upper Limb Wearers," June 2, 2017, Seattle, Washington
- Baylor College of Medicine, Masters of Prosthetics and Orthotics (MPO), "Osseostabilization and Osseosynchronization Interfaces and Advanced Technologies," Houston, Texas, May 12, 2017
- DARPA, Hand Proprioception and Touch Interfaces (HAPTIX), "Adaptive Diagnostic Tooling for Customized Upper Limb Prosthetic Socket Fitment - Reestablishing the Neuromuscular Connection," Feb. 15, 2017, Arlington, VA
- Defense Innovation Technology Acceleration Challenges (DITAC), "Warfighter Load Distribution System," Nov. 29, 2016, Austin, Tx
- Joint Interagency Field Experimentation Program (JIFX), "Warfighter Load Distribution System," Nov. 8, 2016, Camp Roberts, CA
- Neurotechnology Start-Ups of the Future, "Adaptive Diagnostic Tooling for Customized Upper Limb Prosthetic Socket Fitment - Reestablishing the Neuromuscular Connection," March 2, 2016, Menlo Park, CA
- American Orthotic & Prosthetic Association (AOPA) World Congress, "Prosthetic Symposium: Next Generation of Transfemoral Socket," Oct. 8, 2015, San Antonio, TX
- American Orthotic & Prosthetic Association (AOPA) World Congress, "Comparison of the High-Fidelity Transfemoral Interface to Traditional Socket System Using Functional and Subjective Outcomes Measures," Sept. 7, 2014, Las Vegas, Nevada
- OTWorld, "The High-Fidelity Interface System," April 12, 2014, Leipzig Germany
